ACTIVITY NAME	Little Bonds
OUTPUT NUMBER	IO2
PARTNER	Indicated by SYNTHESIS
ACTIVITY & CLASS	Team working and communication Classes: 8-10 years old
DURATION	1h
OBJECTIVES	<ul style="list-style-type: none">- To foster team spirit among students- To enhance the students communication skills
MATERIALS	<ul style="list-style-type: none">- EggsOr- Balloons filled with water- Cleaning tools in case the fragile container breaks
LEARNING ACTIVITY METHOD	<p>The teacher divides students into teams, and explains to them what they will have to do in this activity.</p> <p>Team members have to imagine that they are working for the secret service and have a very important job to do. They are in charge of keeping secret some very important information that is contained within a very fragile container (an egg or a balloon filled with</p>

	<p>water). They must design a method to transport the secret information out of the building and to safety (it can be a specific place in the school yard). The only way to save the information is to drop the information out of the window to safety. BUT remember that the secret information is kept safely in a very fragile container, and... the container must not break or crack as the information will leak out.</p> <p>Once the mission is explained, the teacher will give to each team the fragile container. Students in each team will need to discuss a plan of how they will carry the container safely out of their classroom. Before executing their plan, they will need to share it with the teacher. The teacher will need to ensure that the plan's execution is safe for the students and give approval to proceed.</p>
<p>VISUALS</p> <p>Images/videoclip</p>	
<p>TEACHER PREPARATION</p>	<ul style="list-style-type: none"> - The teacher will have to select members for each team in advance, considering their personality. - Decide the type of fragile container (egg or balloon with water). - Ensure the availability of cleaning tools. - Protection clothing for the students in case the fragile container breaks.
<p>TEACHER'S EVALUATION</p>	<p>The teacher will evaluate:</p> <ul style="list-style-type: none"> - The students' communication skills - The students' team working skills
